## ENERGY STANDARDS

### Energy Standards Plan Check

The following conditions would require energy plan review independently, or in conjunction with Code Plan Check:

- D All new buildings and additions (heated and/or cooled)
- D All new tenant improvements adding heating and/or cooling systems to existing conditioned spaces or to buildings in which the envelope was previously approved for compliance with the Energy Standards
- D All alterations to the envelope of any building
- D All newly installed or altered ductwork
- D All shell buildings
- D New construction, tenant improvement installations, and alterations with a conditioned/unconditioned floor area greater than 1,000 square feet will require review to verify compliance with the California Building Energy Efficiency Standards
- D New construction, tenant improvements and alterations with the outdoor illuminated area greater than 30,000 square feet - or - the addition/modification of outdoor luminaires of 3,200 watts or greater
